Dear Heribert

As a leading Search Engine Marketing company and Executive Committee members of the Search Marketing Association it is vital that our IT infrastructure and network run smoothly and reliably. For some time we have wanted to upgrade our network, install a new server and change from peer-to-peer to a domain network, however I have held off from doing so as I knew the disruption and technical difficulties would make the move counter-productive in the short term.

I'm delighted to say that this was not the case when we bit the bullet and pushed forward with these plans with your assistance. Your knowledge of all IT matters and the invaluable advice you provided ensured that the migration went smoothly and we very quickly were up and running in the new environment.

NETSPOSURE

Snuff Mill Warehouse

I would also like to thank you for putting in the extra hours, both at the time to ensure everything was set up correctly, but also afterwards. You are always extremely helpful and willing to assist in any way you can.

Park Lane

Bewdley

I will have no hesitation recommending Intercontec to my colleagues and professional contacts.
